

From the Kitchen of Big Tobacco

Recipe for Disaster: The Secret Formula for Cigarettes

Ingredients

ARSENIC-used in rat poison
ACETIC ACID-found in Vinegar/hair dye
ACETONE-paint thinner/nail polish remover
AMMONIA-household cleaning fluid
CARBON MONOXIDE-poisonous gas
DDT/DIELDRIN-Insecticides
FORMALDEHYDE-used to embalm dead bodies
HEXAMINE-barbeque lighter fluid
HYDRAZINE-used in jet and rocket fuels
HYDROGEN CYANIDE-poison for gas chambers
LEAD-highly poisonous metal
NAPHTHALENES-used in explosives
NITROBENZENE-a gasoline additive
POLONIUM-210-a highly radioactive element

Directions

Mix tobacco with toxic ingredients at left. Throw in extra nicotine every so often and they'll be asking for more.

And don't forget - kids love it.
